

WATER & NATURAL RESOURCES STORMWATER PROJECT ENGINEER/PROJECT MANAGER DENVER, COLORADO

Job Description: A nationally recognized engineering consulting company seeks an experienced individual to provide project management services at our Denver, Colorado location. The candidate will be involved with all forms of planning, design, and specialty services related to the stormwater-engineering field.

Qualifications: The successful candidate must have at least a bachelor of science degree in civil engineering, environmental engineering, or a related engineering field with 5 to 15 years of experience in the stormwater-engineering field that includes project-management experience. The candidate must be a registered Professional Engineer in Colorado and have experience in providing engineering services in the state. Additional qualifications include the following:

- Excellent oral and written communication skills.
- Practical application of the various hydrology/hydraulics software including, HEC-RAS, HEC-HMS, CUHP, and EPASWMM.
- Experience in developing and guiding construction plan package preparation.
- Experience with AutoCAD and GIS is a benefit.

We enjoy flexible work hours and have an open office environment to share ideas.

Compensation: Salary depends on experience and expertise. Compensation includes a comprehensive fringe-benefits package comprising of medical, vision, dental, holidays, paid leave, 401(k) plan, ESOP, continuing education, and professional societies. RESPEC is a 100% employee-owned company and employees are eligible for participation in the ESOP after a qualifying period.

Interviews: Interviews will be by appointment only. Qualified applicants please apply online https://workforcenow.adp.com/jobs/apply/posting.html?client=respec&jobId=52069&lang=en_US&source=C3. RESPEC is committed to creating a diverse environment and is proud to be an equal opportunity employer.
