Registration

Please e-mail the names, titles and email addresses of the participants from your organization and the workshop venue where you wish to attend to:

Colorado.Silverjackets@usace.army.mil

Presented by the Colorado Water Conservation Board, Colorado Division of Homeland Security and Emergency Management, the US Army Corps of Engineers Cold Regions Research and Engineering Laboratory and other Colorado Silver Jackets Partners.

Two all-day workshops on ice-jams and ice-affected flooding oriented for local, regional and state officials concerned with emergency management and flood risk management.
